Dear Prof. Francesco dell'Isola,
you submitted the paper *"NON-LINEAR CONTINUUM MODELS FOR PLANAR EXTENSIBLE BEAMS AND PANTOGRAPHIC LATTICES OF BEAMS: HEURISTIC HOMOGENIZATION, EXPERIMENTAL AND NUMERICAL EXAMPLES OF EQUILIBRIUM IN LARGE DEFORMATION"* for the ELACTAM 2016 conference.

We found that it would perfectly fit into the scope of the conference and gladly confirm the acceptance of the paper for oral presentation on the conference. The program will be published on the website in January.

During your visit, we will exchange information on scientific research, and discuss research topics with professors of the faculty.

Make sure to book your flights and accommodation for your visit in time, since the demand seems to be quite large nowadays.

I wish you would accept my cordial invitation, and I am looking forward to your early reply.

With best regards,

Prof. Dr. Reinaldo Rodríguez Ramos
